Worth 3% of your grade

Please read this entire prompt!

Assignment:

1) Download Proj4A.tar
    a. It contains 3 programs: p1.c, p2.c, and p3.c
    b. Each program contains memory errors
        i. P1 has two memory errors
        ii. P2 has six memory errors
        iii. P3 has four memory errors
2) Identify the memory errors in p1, p2, and p3
    a. You can use gdb/lldb, printf, or valgrind
        i. GTF will lecture on valgrind / debuggers
3) Write down the memory errors for each program
    a. There is a worksheet for you, available on the class website, with the correct format
    b. Ideally this will be about one sentence per memory error, and your total writeup will fit on the worksheet
4) Bring your worksheet to class on Weds April 20th.
    a. We will grade it as a group then
    b. No late work will be accepted. 10:01am is late.
