## Education

### University of Oregon, Eugene, Oregon, 2002–2009

Ph.D. in Computer and Information Science, 2009

Dissertation Title: “Knowledge Support for Parallel Performance Data Mining”

M.S. Computer and Information Science, 2004

### University of Cincinnati, Cincinnati, OH, 1990-1995

B.S. Computer Science, 1995

## Awards and Honors

Spanish Ministry of Science and Innovation *Juan de la Cierva* Postdoctoral Fellowship, 2009–2011

University of Oregon Computer and Information Science Graduate Research Fellowship, 2002–2009

University of Oregon Computer and Information Science Department Distinguished Service Award, 2008

International Conference on Parallel Processing *Chuan-lin Wu* Best Paper Award, 2005

Upsilon Pi Epsilon Honor Society for the Computing Sciences, 2004–2009

## Research Experience

**University of Oregon.** **2012–present** **Eugene, OR**  
**Research Associate, Senior Research Associate (since 2022)** - Performing research in the areas of data mining, parallel performance analysis, software tool design and software engineering. Particularly interested in the unique problems of intelligent, automated parallel performance analysis, specifically analysis of very large datasets (high processor counts, high event counts, multiple metrics). Also performing research in the areas of introspection for runtime adaptation of high concurrency, task-based runtime systems.

**ParaTools, Inc.** **2011–2012** **Eugene, OR**  
**Computer Scientist** - Principal Investigator and Research Scientist providing analysis expertise in the area of parallel and distributed scientific computing, and performance evaluation tools. Responsibilities include preparing and executing Small Business Innovation Research (SBIR) proposals to US agencies such as the National Aeronautics and Space Administration and Department of Energy Office of Science.

**Barcelona Supercomputing Center** **2009–2011** **Barcelona, Spain**  
**Postdoctoral Research** - Developed and applied analysis tools and expertise to improve the performance of scientific software. Designed and implemented automated

### **Senior Software Engineer**

Developed a web application with a back-end database to process both automated and manual services for the mortgage industry. Also designed and maintained an web application order-entry interface for customers.

**Triple-I Systems, Inc.**

**1997–2001**

**Cincinnati, OH**

### **Senior Systems Engineer Consultant and Technical Leader**

Worked as a software developer for a small consulting firm. During my tenure, I worked with four different clients:

Led a team of four consultants working on-site, developing an enterprise intranet workflow application and Internet business-to-business web site using Microsoft development tools and third-party workflow software.

Worked as part of a small team developing web applications. The web sites were part of a suite of applications used by high school students to research colleges and plan careers. Helped develop new features within the site, and worked independently to integrate site searching and a student profile section.

Worked on an Internet pilot project at a leading online legal and news research firm, developing a subscription web application intended to replace an existing dial-up service. As a lead member of the research and analysis team, helped to improve performance and stability of the application.

Responsible for developing automated voice response data collection systems. These solutions replaced employee/customer interaction with an automated phone system to perform repetitive information gathering tasks.

**International TechneGroup, Inc.**

**1992–1997**

**Milford, OH**

### **Software Engineer / Lead Software Engineer**

Developed data translators and related tools for computer aided design, manufacturing and engineering. Maintained, enhanced, and ported the translators and related software to multiple UNIX and Windows environments. Developed new applications that were portable across multiple UNIX platforms, Windows NT, Windows 95 and DOS.

## **Conference and Workshop Activity**

**International Conference for High Performance Computing, Networking, Storage and Analysis (SC) 2023**

Program committee member.

**IEEE International Parallel & Distributed Processing Symposium (IPDPS) 2022**

Program committee member.

**Workshop on Programming and Performance Visualization Tools (ProTools) 2021**

Program committee member.

**Workshop on Monitoring and Analysis for HPC Systems Plus Applications (HPCMASPA) 2021**

Program committee member.

**Euro-Par 2021**

Program committee member.

**Practice and Experience in Advanced Research Computing (PEARC) 2021**

Program committee member.

**ISC High Performance** 2021  
Tutorials chair.

**The Platform for Advanced Scientific Computing (PASC) Conference** 2020  
Program committee member.

**ISC High Performance** 2020  
Tutorials deputy chair.

**IEEE Cluster** 2019  
Technical program committee member, posters.

**International Conference for High Performance Computing, Networking, Storage and Analysis (SC)** 2019  
Technical program committee member.

**International Conference for High Performance Computing, Networking, Storage and Analysis (SC)** 2018  
Tutorials Vice Chair.

**International Conference for High Performance Computing, Networking, Storage and Analysis (SC)** 2016 – 2017  
Technical program committee member, *Tutorials*.

**21st International Workshop on High-level Parallel Programming Models and Supportive Environments (HIPS)** 2016  
Technical program committee member.

**International Conference on Computational Science (ICCS)** 2016  
Technical program committee member.

**2nd Workshop on Visual Performance Analysis (VPA)** 2015  
Technical program committee member.

**Petascale Tools Workshop** 2013 – 2015  
Invited participant, summer workshop.

**International Meeting on High Performance Computing for Computational Science (VECPAR)** 2014  
Web Chair.

**International Conference on Supercomputing (ICS)** 2014  
Program committee member.

**International Conference on Computational Science (ICCS)** 2014  
Program committee member.

**Workshop on Productivity and Performance (PROPER)** 2013  
Program committee member.

**International Conference on Supercomputing (ICS)** 2013  
Web Chair.

**International Conference on Computational Science (ICCS)** 2013  
Program committee member.

**IEEE International Parallel & Distributed Processing Symposium (IPDPS)** 2013  
Program committee member.

**Workshop on High-performance Infrastructure for Scalable Tools (WHIST)** 2012  
Program committee member.

**International Conference for High Performance Computing, Networking, Storage and Analysis (SC11)** 2011

Technical program committee member, *Technical Papers, Performance*.

**Workshop on High-performance Infrastructure for Scalable Tools (WHIST)** 2011

Program committee member.

**Center for Scalable Application Development Software (CScADS)** 2008 and 2010

Invited participant, *Performance Tools for Petascale Computing* summer workshop.

**International Conference on Parallel Processing (ICPP)** 2010

Program committee member.

**Schloss Dagstuhl – Leibniz-Center for Informatics** 2010

Invited participant, *Program Development for Extreme-Scale Computing* workshop.

**Parallel Computing (ParCo) Conference** 2009

Program committee member, session chair.

**Schloss Dagstuhl – Leibniz-Center for Informatics** 2007

Invited participant, *Code Instrumentation and Modeling for Parallel Performance Analysis* workshop.

## University and Community Services

**Computing Resource Committee** 2005–2006

Student representative to the committee for the academic year. Provided a student perspective of the development and maintenance of the department’s hardware and software computing resources.

**GTFF Steward** 2003–2006

Computer & Information Science Department representative to the Graduate Teaching Fellows Federation (GTFF) Local 3544. Attended monthly Executive Council meetings to represent the CIS department, discussed GTFF policy, voted on resolutions, and handled grievances.

**Graduate Education Committee** 2003–2004

Student representative to the committee for the academic year. Helped shape department policy for graduate students and gave student feedback to the faculty.

**Friendship Foundation for International Students** 2007–2008

Provided housing and support for an international undergraduate student prior to the academic school year.
